Dear Professor Mills.

I send to you by
this post the copies of
my Memoirs in the
Transactions. so soon as
I can supply them. The
deficiencies are, I think,
the two a pi + a my Papers
on "Wax" which ought
ought to be in any
just list connected
with "Young"; who has

Collins Brodie, the younger,
Sir Benjamin F.R.S., Prof Chem., Oxon.

Now be quite willing
to give you more
copies of them and of one
or two other Memoirs, of
which I have a good
supply. They can be turned
to no better account than
that of being read by
any, who are likely to
go on.

I had plenty of difficulties
to face at college, when I
first went there and
also when I left. So I can
quite feel for you in your
uphill work. Do not be
beaten under and about
you remember that every step
forward is a permanent gain
for the future. Yours truly

turned Paraffin and
Paraffin oils & such
good accounts, and
also my Paper on the
"Condition of certain Elements
at the Moment of Chemical
change"; in which the
views now generally received
of the decomposition of
oxide of Silver and the
like by the Peroxide
of Hydrogen and other
alkaline peroxides was
first put forward.
If I could be able to
find copies of them for
you, I will send them
hereafter.
Of two or three Papers
of which I have several
copies I can send you
Duplicates. Perhaps the
latter may be useful, in
various ways, to Students.
If you should find that
these are severally to
